Hi,

Our token sale #3 ended now.

Can you please give me some idea on how much you folks are planning, so that I can discuss with the Finance team to see if we can make some exceptions in your case.

We are in pre-sale and plan is to go mainnet in Q3 2021 along with crypto exchanges. Once we are in mainnet, we will be publishing the Latinum wallets into google and apple AppStores. You need to download the wallet, create your own address and then we will transfer the tokens to your wallet.

In any case, if you need to buy the presale tokens, you need to create an account at <https://app.bitcoinlatinum.com>. Please checkout and create one.

Thank you for being an early supporter of Bitcoin Latinum.

Thank you. Excited about contributing.

We were planning to transfer some BTC and ETH from our Coinbase and Binance wallets. Can we still do this on the Latinum website? Are there easier ways to invest now?

The site told us:

“Bitcoin Latinum Token sale for Stage 2 has been finished. Thank you for your contributions. We will open for the Stage 3 sales for the week of Aug 1.”

Thanks,

Please respond at your earliest convenience, we would like to contribute as soon as possible.
